Description

From start to finish we will be by your side - from the beginning of planning and designing your dream kitchen to the very end of installation, making sure you are happy at every stage! Once you are completely happy with the design, your kitchen order will be sent to Germany for production. Production and delivery can take between 6-8 weeks (subject to changes). Our team cover every aspects of building works so you do not have to worry about getting your own plaster or electrician and any other service needed! This will all be covered during the planning process. Our kitchen fitter (who has over 35+ years experience in fitting German kitchens) will then come in and do the fit with great precision, this normally takes between 1 and 2 weeks (dependent on size).
